- Python
- Java
- Prompt Engineering
- AI Engineering
- Gemini
- Google APIs
- Generative AI

LANGUAGES

- English (Upper Intermediate)
- Hindi (Advanced)

EDUCATION

NIMS UNIVERSITY
Bachelor of Technology
Computer Science Engineering
2023 - 2027

PROFILE

I'm a Computer Science student who enjoys building things with **Python** and **Java**. Recently, I've been working on AI chatbot projects that use voice and automation features. I'm also certified in Prompt Design & Engineering and love exploring new ideas in AI and software development.

PROJECTS

Website Health Checker (Terminal based)

- Python based tool that checks website status and response at real time directly in terminal.

Insight Engine (Summarization Tool)

- Created a text summarization tool based on open-source ollama models. Designed to quickly condense long content into clear summarization.

CERTIFICATIONS

- Prompt Design & Engineering (Google Cloud Skills 2025)
- Build real world AI Applications (Google Cloud Skills 2025)
- Deloitte Australia Technology Job Simulation - Forage (2025)

EXPERIENCE

Work Study Student 2024 - Present

- Engaged actively in professional development opportunities, continuously seeking to improve and grow in the work-study role.
- Contributed to a positive work environment by maintaining strong relationships with peers, supervisors, and students.
- Interacted respectfully with others to offer ideas, identify issues, and provide assistance.
- Managed an organized filing system for important documents, ensuring easy access when needed.
- Developed excellent customer service skills through interactions with diverse populations within the university community.
- Implemented creative problem-solving strategies to address challenges faced during daily operations within the work-study position.
